

Crystal Clear: Digital Signage

Room Signage

Meeting and conference room reservation has never looked so good. With **sep100 technology** by PDi Digital, you can connect your booking system and digital displays, enabling real-time updates for vital information that keeps everyone in your office, public building, school or university, up to date. Ready to give your booking system that professional touch? Then you can benefit from sep100's simplicity and adaptability today.

Workplace Management

Shared office spaces are a key feature of modern working environments, the antidote to high rent prices, rapidly growing workforces, and pandemic-induced spacing restrictions. Need an intelligent solution to space management at work? Look no further than sep100. With our technology, finding and booking a workstation is made simple: saving time, stress, and money with style.

Key Benefits

- Live view of current and upcoming meetings.
- Integration with existing booking, calendar, and reservation systems.
- Automated status updates.
- Extend reservations with buttons on displays.
- Quick and easy adjustments in case of booking changes.
- LED flashes to remind occupants when a meeting or reservation is about to end.
- Faster and cheaper than paper labels.

sepioo Technology

At PDi Digital, we disrupt the future of industrial IoT. Our **sepioo IIoT technology** helps to realize a digitally connected world where **relevant data** is shared at the **right time** to the **right people**: all this in a power efficient and sustainable way. sepioo is delivered via a powerful IIoT platform, reliable infrastructure, and digital displays complete with ultra low energy IIoT sensors. Together, these help our customers and partners to maximize their digital potential. Secure two-way communication is ensured via wireless 2.4 GHz frequency, via a SIM Card (NB-IoT) to your mobile carrier or, for our newest battery-free sepioo display, via NFC.
