

Digitize Manufacturing & Logistics

Paperless Processes

Embrace the future. By digitizing traditional, paper-based processes, **sep100 technology** transforms your digital vision into a tangible reality. Our technology enables greater precision through direct connections to ERP systems, traceability throughout the product journey, and faster throughput times. The result? Massive savings in time and costs.

Picking

Everyone wants faster picking with fewer errors. But how? With sep100's rapid information flows and quality digital displays, you can create pick-by-light and put-to-light systems that reduce errors and save money in your warehouse. Our digital displays can be mounted on bins, shelves, machines or even on moving load carriers: you'll know instantly what was taken and how much is left. Better yet, your employees can feed into the system by using the integrated buttons for confirmation.

Key Benefits

- Perfect readability for humans and machines.
- Real-time, automated display updates and workflow optimization.
- Ultra-fast LED flashes for pick-by-light and put-to-light applications.
- Production line tracking with QR or bar-codes on digital labels (no paper labels).
- Integration with WMS, MES, ERP and other management systems.
- Improved warehouse management.
- Contribution to paperless factory approach.

sepioo Technology

At PDi Digital, we disrupt the future of industrial IoT. Our **sepioo IIoT technology** helps to realize a digitally connected world where **relevant data** is shared at the **right time** to the **right people**: all this in a power efficient and sustainable way. sepioo is delivered via a powerful IIoT platform, reliable infrastructure, and digital displays complete with ultra low energy IIoT sensors. Together, these help our customers and partners to maximize their digital potential. Secure two-way communication is ensured via wireless 2.4 GHz frequency, via a SIM Card (NB-IoT) to your mobile carrier or, for our newest battery-free sepioo display, via NFC.

About PDi Digital

Based near Graz, Austria, PDi Digital is an IIoT tech company powered by a close-knit team of industry experts. We combine the knowledge of our shareholders, SES-imagotag and Bossard AG, with our unique flexibility and flair to bring startup agility to established global market leaders.
